The Board of Health shall hear and determine variances from the strict application of this chapter and the rules and regulations adopted hereunder. The Board of Health shall also hear and determine appeals concerning revocation of any permits issued under the provisions of this chapter.

(b) Appeals to Board. Any person whose application for a permit under this chapter has been denied or whose permit has been revoked or who is aggrieved by any decision or order of the Health Director may, within ten days after official notification of such action, file with the Board of Health a written appeal or written request for variance of the strict application of any of the rules, regulations, standards or ordinances adopted by the City Council as described in Section 8.40.030. Notice of said public hearing shall be published at least three days prior to the hearing in a newspaper of general circulation in the county. (c) Hearing Procedure. Hearings on appeal need not be conducted according to technical rules relating to evidence and witnesses. Oral evidence shall be taken only on oath or affirmation. The appellant, the Health Director, and any other party to the appeal hereunder shall have these rights, among others:

In exercising the above mentioned jurisdiction, the Board of Health may in conformity with the provisions of this section reverse or affirm, wholly or partially, or may modify the order, requirement, decision, or determination appealed from and may make such decision as ought to be made. In granting any variance from the strict applications of this chapter, the Board of Health may impose any and all terms and conditions it deems necessary for the protection of public health and safety. Every decision by the board shall be accompanied by a written finding of fact based upon testimony and other evidence, specifying the reason for granting or denying the variance. (Ord. 15566 §10; May 14, 1990: P.C. §8.68.100: Ord. 15243 §10; August 7, 1989).
